

DOOR CANOPIES

ABOUT US

WHERE WE CAME FROM

Established in 1990 based in Darwen Lancashire. We are a North West company with a solid background in manufacturing. The company's range of products has grown steadily from a single offering; our original Connekt canopy, to the comprehensive range we have today.

Since 1990 we have established ourselves as being true canopy pioneers. Today we're a company that's widely recognised across the length and breadth of the country as the leading designer, manufacturer and installer of high quality canopies.

WHERE WE ARE NOW

In addition to the housebuilders sector we provide outdoor canopies to a diverse range of customers from the regeneration, domestic, education, commercial and hospitality sectors. We are a forward looking company focused on providing solutions for todays buyers.

WHERE WE'RE HEADING

Our focus is to develop new innovative products expanding our range and markets. We aim to continue to be recognised as the market leader in outdoor canopies, throughout we remain committed to our core belief that our customers deserve more than they expect.

OUR VISION

**FOR EVERY COMPANY IN THE UK
TO INSTALL ONE OF OUR CANOPIES**

OUR ACCREDITATIONS

It is important that our canopies can stand up to the British weather and everything it has to offer. Lots of time and money is invested in testing, following strict procedures when doing so.

Our canopies are designed in compliance with the Eurocodes, including BS EN 1991-1-3 for snow loads and BS EN 1991-1-4 for wind loads.

All full scale product tests are undertaken with loads consistent with the Eurocodes (which have succeeded BS6399). These tests have been verified by independent structural engineers. In addition we have our own in-house 'test rig' which allows us to constantly improve all of our products.

GRP CANOPIES

We manufacture our door canopies entirely from GRP (glass reinforced plastic) commonly known as fibreglass. Early examples of base fibreglass have been found in the pharaohs tombs, but it wasn't until the 1930s that we discovered the advantages of this versatile material.

GRP has a high strength to weight ratio and high flexural strength, it has a greater specific resistance to that of steel. It has high resistance to ultraviolet light, is naturally incombustible and doesn't propagate a flame. All this enables us to produce a lightweight, maintenance free, durable product.

We offer a range of styles with both smooth and tile effect roof in a range of colours. We also offer a bespoke service, our production team includes experienced mould makers and designers who will look at any requirements you have.

We incorporate a GRP lead effect flashing to the roof for ease of install, and place strategic fixing slots on the back of the canopies to use with our supplied fixing brackets, ensuring a polished seamless finish.

We manufacture everything in house, and all canopies are hand finished and undergo stringent quality checks before delivery to our customers.

Professional, cost-effective and deliver on time, no issues with products and the staff are very friendly.

OUR DOOR CANOPIES

HIPPED

LEAN-TO

APEX

FLAT

Door canopies made from 100% GRP to suit every type of new build home. From classic and traditional styles, to more modern designs, and smooth or tile effects to choose from. It's possible to manufacture totally bespoke canopies to your specification too.

All of our canopies are designed to your specifications and manufactured to order.

As leading GRP door canopy manufacturers, we offer a fast turnaround and can get your order on to the production schedule within a very short amount of time. Once your canopies are manufactured, our warehouse team will contact you to make sure the delivery date is right for you. Our standard lead time for the whole process is between three to four weeks.

We typically find that most contractors, builders and housing associations work with the same standard colours within their construction projects, but if you require something that's a little different to the norm, we can still help, thanks to our fully bespoke service.

OUR SERVICE

Construction projects are full of interesting surprises, at Canopies UK we make sure you get what you expect, when you expect it. Taking ownership right from the start, you can relax in the knowledge that you are in capable hands.

Design

Our design facility is the best the market can offer. From standard products to bespoke design, we have got it covered.

Manufacture

Our in-house design and manufacturing facility create products that are second to none. Your new GRP door canopies will be the highest quality and the perfect fit.

Survey

We are experts in canopy replacement projects, throughout our 30 year history you can be sure we've come across it all.

Delivery

Our own fleet of tracked vehicles and drivers deliver our products nationally, every day, on time, everytime and always happy to help.

BB 99

Great design on complicated pitched canopies, well made and fitted well on site by a team who wanted the product to look good for our project.

Mark Halton, United Living

BESPOKE SERVICE

Not seen anything in our standard range?

We also offer a bespoke service, our experienced mould makers can adapt our ranges to suit your site conditions to accommodate recesses, obstructions, etc.

We can also design to your exact requirements, past projects include bay tops, window surrounds, porch roofs, dormers, flat roofs and chimneys. A choice of finishes, side panels, integral gutters, lead effect, insulation and others can be fitted.

Our expert team offers a complete survey, design, and manufacturing solution to match your needs; all you need to do is contact our technical department.

Canopies UK are always helpful, efficient, competitive, punctual and supply the best quality products. They make the whole process simple and are willing to go the extra mile.

Mears New Homes

Trusted by:

ballymore.

We were impressed by the quality of the door canopies and the service we received. All of the new canopies look very smart and have attracted plenty of good feedback.
